# Demystifying Quantum Physics

*The Nature of subatomic World, and its Applications*

## Speaker

**Dr. Enis Yazici**  
**SRH University  
Heidelberg**

## Language

English

## Date

November, 25th 2022  
18.00: Welcome Coffee  
and snacks  
18.15–19.15: Talk

## Location of the event

Tilsiter Str. 11–13  
69124 Heidelberg

## Topic

The mysterious world of quantum physics mystified scientists for decades.

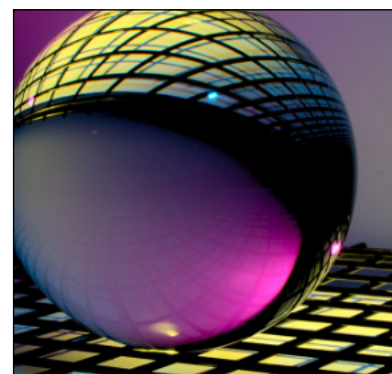

But this mind-blowing theory is the best model of reality that we have.

In this talk, we walk through the history of quantum era, from Max Planck to the present day.

We discuss some of the famous concepts like

- Schrödinger's cat
- Copenhagen Interpretation
- Parallel Universes
- Quantum Entanglement
- Quantum Computers

$$i \hbar \psi' = H \psi$$
